

“Breathing Again!”

6th European Airway Management Congress

EAC2022

Pine Beach Belek Congress Center / Antalya - TURKEY

28 September - 1 October 2022

HYBRID CONGRESS

Dear Colleagues,

On behalf of European Airway Management Society, we are honored and excited to announce that the 6th European Airway Congress will be held at Pine Beach Belek Congress Center in Antalya between 28 September – 1 October 2022.

We have created a rich scientific program about the difficult airway management. The contributions to be done by more than 40 expert speakers from all around the world will further enhance the scientific content of the congress. In addition, the day before the Congress starts, the “Teach the Airway Teacher” course will be held with the experienced TAT international faculty. Participants will be awarded with the EAMS-Airway Teacher Diploma.

Furthermore, you will have the opportunity to try the novel technologies, techniques and devices during airway courses that will be held throughout the Congress. All airway courses will be free of charge except TAT course, but pre-registration is required. In Mini Workshops / Meet the Expert Meetings, you will receive one-to-one training from experts and participate in a detailed interactive discussion environment. You may also practice and enjoy with airway management experts in challenging airway cases by Simulation-Based Airway Management Sessions.

Simultaneous translation will be provided throughout the Congress. All abstracts will be presented as oral presentations and the best papers will be awarded after the competition.

Along with unique scientific events, you will have the chance to enjoy Antalya with its magnificent nature and will be able to participate in social programs. We will be happy to see you among us in the Congress which will take place face to face and in Turkey after COVID outbreak.
